Patches

The screenshot shows a web browser window displaying the PowerWorld Corporation website. The browser's address bar shows the URL www.powerworld.com. The website header includes the PowerWorld logo, a "Try Simulator for Free" button, and a navigation menu with the following items: Home, Products, Services, Solutions, Download & Purchase, Knowledge Base, Training, and Company. The "Download & Purchase" menu is open, showing a list of options: Demo Software, How to Purchase, Request a Quote, Software Keys, Software Patches, Changing the License Key, and Download Help Files. The main content area features a banner with the text "The visual approach to electric power systems" and "What do you want to do? We can help." Below this, there are links for "SEE SOLUTIONS FOR: Industry" and "Education". At the bottom, there are sections for "Our Products" with sub-sections for "TransLineCalc", "Viewer", and "Simulator".

Download Patches

To obtain the patch, please provide your PowerWorld Simulator or Retriever Customer Account User Name and Product Identification in the spaces below. If you do not know this information, please contact us at support@powerworld.com.

Customer Account User Name

Password (Product ID)

First Name

Last Name

Email Address

PowerWorld Corporation will match your Customer Account User Name with your Product ID and determine of which product you are a licensee. You will then be prompted to save the patch installation file to your hard drive. Remember where you save this file on your hard drive, and then go to this location and run the file.

The visual approach to electric power systems

What do you want to do? We can help.

SEE SOLUTIONS FOR: Industry Education

Our Products
PowerWorld's wide range of products provide the tools needed by transmission

Simulator
Our interactive power systems simulation package for high voltage power systems operation on a time frame ranging from several minutes

Retriever
PowerWorld's system visualization tools combined with real-time data.

Trainer
A new flexible multi-user operations training platform.

Training

The screenshot shows the PowerWorld Corporation website. The browser address bar displays 'www.powerworld.com'. The navigation menu includes 'Home', 'Products', 'Services', 'Solutions', 'Download & Purchase', 'Knowledge Base', 'Training', and 'Company'. The 'Training' dropdown menu is open, listing the following items: Training Calendar, Training Overview, Course Descriptions, Training Registration, Hotels and Transportation, Online Training, and Quick-Start Guides. Below the navigation menu, there is a banner with the text 'The visual approach to electric power systems' and 'What do you want to do? We can help.' Below the banner, there are four columns: 'Our Products', 'Simulator', 'Retriever', and 'Trainer'. The 'Our Products' column contains the text 'PowerWorld's wide range of products provide the tools needed by transmission'. The 'Simulator' column contains the text 'Our interactive power systems simulation package for high voltage power systems operation on a time frame ranging from several minutes'. The 'Retriever' column contains the text 'PowerWorld's system visualization tools combined with real-time data.' The 'Trainer' column contains the text 'A new flexible multi-user operations training platform.'

PowerWorld Corporation provides software training in the use of PowerWorld Simulator and add-on products OPF, SCOPF, OPF Reserves, ATC, PVQV, Transient Stability, and SimAuto. Our training also covers some basics of the engineering, operations, and economics of interconnected power systems.

Several recorded training modules from the 2-day course, [Introduction to PowerWorld Simulator: Interface and Common Tools](#), are available here for free viewing. A dual-monitor system is recommended to enable viewing of the training video alongside the PowerWorld Simulator application. If you don't yet have PowerWorld Simulator you can perform most of the exercises covered in these training modules on our [free 12-bus evaluation version](#).

Most training pages contain links for both YouTube and Flash versions. The Flash versions require Adobe Flash Player, version 7 or later. ([Get Adobe Flash Player.](#))

[Download Sample Cases and Online Diagrams](#) used in training modules.

WECC Website

The screenshot shows a web browser window displaying the WECC website. The browser's address bar shows the URL www.wecc.biz/committees/Pages/Committees.aspx. The website has a navigation menu with the following items: Home, About WECC, Standards, Committees, Planning, Training, Library, Compliance, and Careers. The main content area is titled "Western Electricity Coordinating Council > Committees".

The central feature is a hierarchical diagram of the WECC organizational structure:

- WECC Members** (top level)
- Board of Directors** (second level)
- Joint Guidance Committee** (third level, connected to Board of Directors by a dashed line)
- Market Interface Committee**, **Operating Committee**, and **Planning Coordination Committee** (third level, connected to Board of Directors by solid lines)
- RS**, **LRS**, **TSS**, and **JSIS** (fourth level, connected to Operating and Planning Coordination Committees by solid lines)
- PWUWG**, **GEPUWG**, **SRWG**, **PTIPUWG**, and **MVWG** (fifth level, connected to RS, LRS, TSS, JSIS, and JSIS by solid lines)

Below the diagram is the text "Power World Users Work Group".

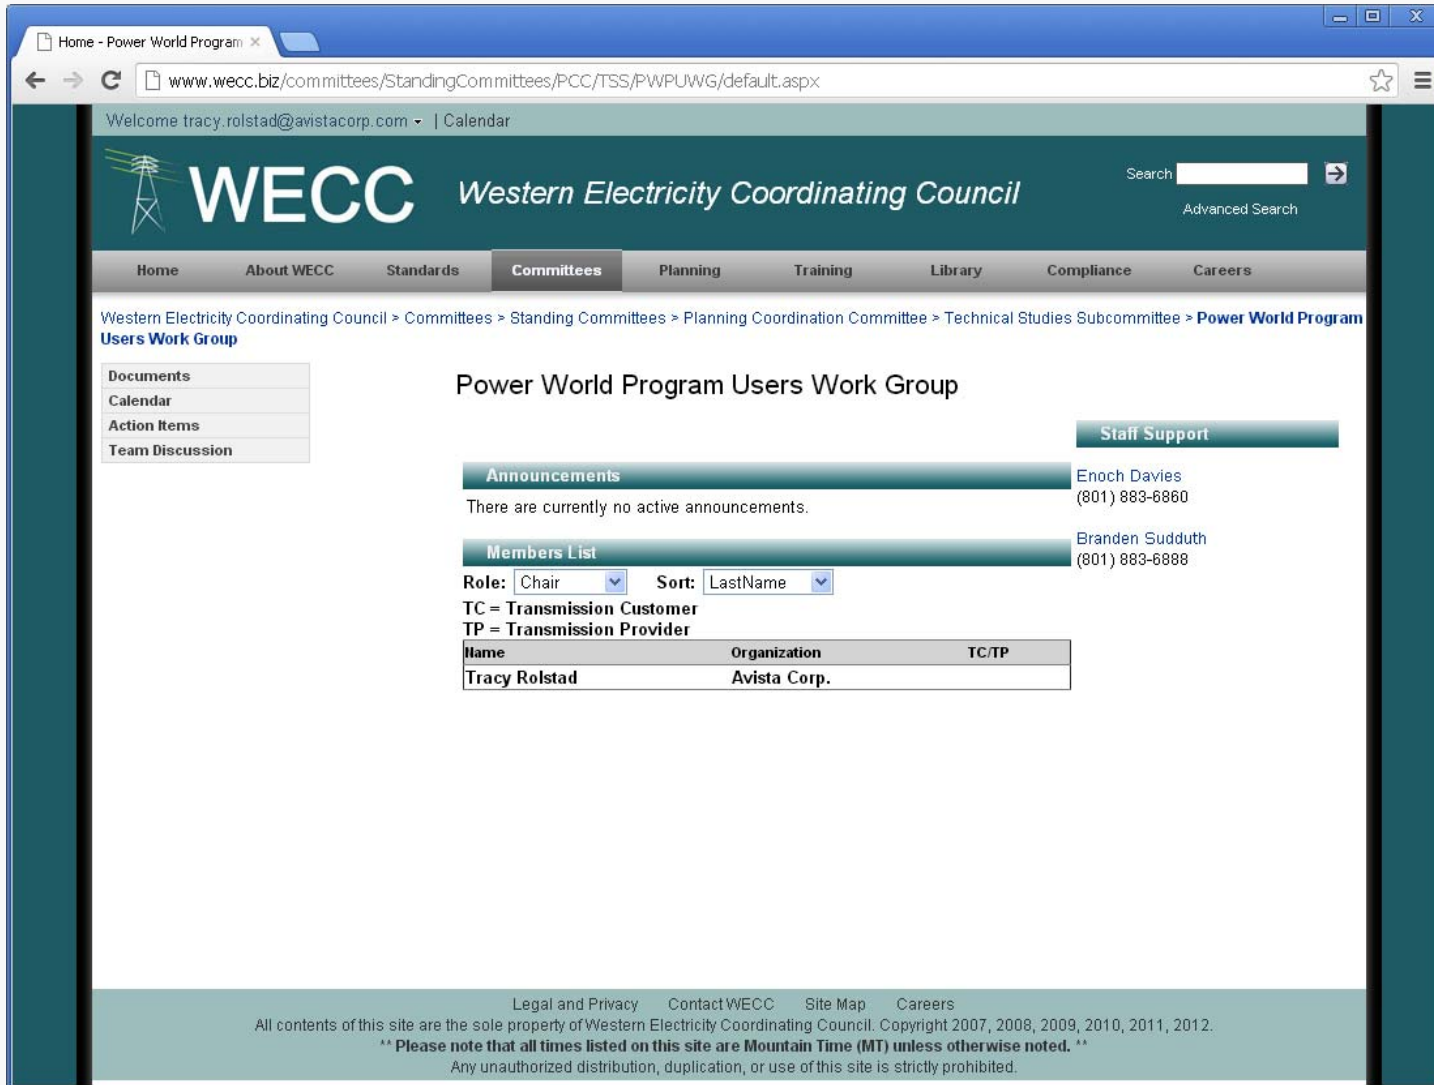

On the right side of the page, there are three sections:

- Contact Details:** Kwin Peterson (801) 883-6874
- Group Quick Link:** Choose Committee... (dropdown menu)
- Quick Links:** Committee Support Training
